

RECYCLING AND WASTE DISPOSAL, A LITTLE EFFORT GOES A LONG WAY

RECYCLING AND WASTE DISPOSAL
INFORMATION FOR HOUSEHOLDS

Ville de Lausanne

Service de la propreté urbaine

DOOR-TO-DOOR COLLECTIONS

Household refuse, paper and cardboard, glass and organic waste are collected door-to-door. Your building must be equipped with four containers for this service to operate.

HOUSEHOLD WASTE

 ENERGY AND HEATING

Recyclable and special waste.

PAPER & CARDBOARD

 PAPER

Plastic film/sleeves, binders, polystyrene foam, drinks cartons, paper napkins, tissues, kitchen roll, pizza boxes, wood, etc.

Household waste must be placed in **the official white “Trier c’est valoriser” taxed bags**, which can be purchased from shops in Lausanne. You can place your raw and cooked waste (organic waste) in compostable bags that meet **standard EN 13432**. The standard is written on the bag itself.

GLASS

 GLASS

 **NO** PET packaging, aluminium cans, mirrors, window panes, light bulbs, fluorescent lights, earthenware, ceramic, crockery, flower pots, etc.

ORGANIC WASTE

Compostable bags that meet standard EN13432

 BIOGAS AND COMPOST

 **NO** Plastic packaging, cellophane, glass, polystyrene foam, nappies, animal litter, coffee capsules, etc.

PERMANENT AND MOBILE RECYCLING CENTRES

Five permanent recycling centres are available for your use, in locations throughout the city (see below). Here, you can dispose of all recyclable waste, as well as bulky items. The Malley recycling centre also has a section ("espace ressourcerie") that collects and redistributes your unwanted household goods. Once a month, a mobile recycling centre will visit your area from 2 p.m. to 7 p.m. You can take all your recyclable waste to the mobile centre. Access to the permanent and mobile recycling centres requires a permit, which you can obtain by calling 0800 804 806, visiting the website www.lausanne.ch/dechets, sending your request by post or requesting it at the recycling centre when visiting for the first time.

ECOPOINTS

Your local ecopoint allows you to dispose of the following recyclable waste at any time: textiles (in a bag, regardless of condition), mineral and vegetable oils, aluminium and tinplate.

RETURNING ITEMS TO SHOPS

Used electrical and electronic items and household appliances may be returned to all points of sale that offer the same type of items for sale. A number of shops also allow you to return PET packaging, bottles, medicines and used batteries.

The City of Lausanne would like to make residents aware of the importance of responsible waste sorting. Appropriate recycling gives our household waste a new lease of life.

Recyclable objects and materials.

Incinerated waste. Household waste must be placed in official bags and is collected door-to-door.

Special precautions must be taken with sharp or pointed objects (razor blades, needles, knives, etc.), as they may cause injury when handling the bin bags. In particular, syringes must never be disposed of in the household waste.

GOOD TO KNOW

All waste producers are obliged to manage and eliminate their waste in accordance with the federal and cantonal legislation, as well as the local regulations (RGD and its directives).

Don't forget to check the official waste calendar, which lists collection days, dates and times, and provides information about the facilities available to users (**locations and times**). A digital version, personalised by address, is available on the www.lausanne.ch/ramassage website, as well as the City of Lausanne mobile app.

Unauthorised waste disposal is not permitted. Therefore, the use of untaxed bags, the disposal of waste on public roads outside the set locations, days and times, and disposal outside recycling centre opening hours are strictly forbidden. Checks are carried out and any breach will be reported to the police and penalties applied according to the local waste management regulations (art. 17).

This document is available in several languages at:
